

PRODUCT INFORMATION S2000-P-45_TY_US - 05.01.2021 - www.vs-furniture.com

Series 2000 Typ P. Folding screen (4/5 parts).

System consists of 4 or 5 flexibly-jointed, mobile, free-standing screen.

Construction is based on a four-sided frame of aluminium profile and a filling element. Add-on elements are connected by a flexible joint and can be easily folded together.

Filling elements: 1. Melamine-resin laminated chipboard. 2. chipboard laminated with a vitreous-enamelled metal sheet to which magnets adhere (at level 62"). 3. From a lightweight top with fabric covering. 4. A melamine-resin laminated sound-absorbing panel with slits. 5. A translucent double-ribbed board.

Supporting element consists of short struts each with 2 castors and a supporting castor. For safety reasons paravent screens in kindergartens and schools must be fitted with a push-handle.

The following material groups are available to choose from: Frame made of aluminium: M(anodisé); Stabiliser and foot made of aluminium: M(arctic, black RAL 9011); Writing surface made of steel: E(white); Fabric cover: S46,52,73,74,78,79,80; Acoustic surface made of chipboard: L3.
